  - e. Taping Clinic – Jeff Cloos will investigate the possibility of holding a taping clinic for all coaches to assist their players in a proper manner for needs prior to practices and games.
4. Student Athletic Leadership Council (SALC) update
- a. The first meeting was held in early October and approximately 5 students attended. More meetings will be conducted either during homeroom or breaks and will last approximately 15 to 20 minutes. Each of the 5 initial meeting attendees were asked return to the next meeting with at least one additional student/athlete to participate. This meeting will offer the student athletes an opportunity to get together with the Athletic Director and provide an avenue for questions and feedback on various subjects as well as involvement with NHIAA activities such as the penguin plunge and student ambassadors to NHIAA and sportsmanship initiatives.
5. Classifications/Division placement for sports teams
- a. Jeff Cloos provided some information in regards to how sports committees of the NHIAA determine where schools fall category wise into Divisions. Once the divisions are proposed by a sport committee to the NHIAA classification committee a school can petition up or down within their sport based on NHIAA pre-defined reasons and criteria that must be followed for petitioning. IL-MA football team has been placed in Division 5 for next year's football season primarily based on the combined student body populations of the ILHS and MA. One of the reasons a petition may be found could be due to long distances to travel to opponents for events and the travel costs can be a burden to the schools budget. Once a team is assigned to a Division and petitions are all settled then the teams are in that Division for two years as the sports committees and classification committees are on a two year cycle for reviews related to this subject matter.
